

SUBJECT INDEX TO VOLUME XX

	Page
After-harvest sprouting in wheat, The breeding significance of.....	402
Agricultural lands, Differentiation of forest and.....	291
Agricultural policy in Canada.....	1
Agricultural production and trade in the economic development of British Columbia, The significance of.....	73
Agricultural production in British Columbia, The relation between changes in the rural population and the trend of.....	87
Agriculture in British Columbia, The history of.....	61
Alfalfa, Seed setting in.....	570
Alfalfa, The maternal-line selection method of breeding for increased seed setting in.....	131
Alkali salts on plant growth, The effect of.....	272
Apple rootstock and double-working trials in Eastern Canada, Present status of the.....	150
Apple trees in sand culture and in commercial orchards, Magnesium deficiency of..	516
Appraisal of the movement to increase industrial uses of farm products, An.....	20
Atmometer to single meteorological factors, The response of the Livingston.....	308
Bacon hogs, The feeding value of Canadian western barley for.....	365
Bacterial discoloration of print butter, A.....	638
Barley for bacon hogs, The feeding value of Canadian western.....	365
Barley, The relation between the protein content of Western Canadian hard red spring wheat, amber durum wheat, and.....	599
Barley varieties in relation to breeding, Dormancy in wheat and.....	355
Bees, Cross-pollination of red clover by honey.....	574
Blast, Further studies on oat.....	157
Blast, Studies on oat.....	532
Boron content of some Okanagan soils, The.....	257
Boron, Micro-element studies with special reference to the element.....	470
Breeding significance of after-harvest sprouting in wheat, The.....	402
Browning root rot of wheat with special reference to its control, Present knowledge of.....	735
Brunton compass in the Saskatchewan soil survey, Use of the.....	277
Butter, A bacterial discoloration of print.....	638
<i>Campoplegidea</i> occurring in America north of Mexico, A revision of the ichneumonflies of the genus.....	647
Canning tomatoes, A scoring system for.....	317
Carcass studies, Hog. Effect of early rate of growth on leanness of carcass.....	592
Celery, Greenhouse fertilizer studies of.....	329
Chemical constituents of some fruits grown in British Columbia.....	321
Cherries, Maturity studies with sweet.....	497
Chick weight relationship, The existence of a sex difference in the weight of day-old chicks, with further data on the egg weight.....	586
Clover by honey bees, Cross-pollination of red.....	574
Codling moth in south-western Quebec, Studies on the life history of the.....	624
Cresses in Canada, Hoary.....	750
Cross-pollination of red clover by honey bees.....	574
Dairy farming, Factors affecting efficiency in.....	51
Deficiency of apple trees in sand culture and in commercial orchards, Magnesium..	516
Digestibility studies with ruminants. V. Associative digestibility among roughages and succulent feeds.....	175

	Page
Digestibility studies with ruminants. VI. Associative digestibility of grains: barley, oats and oil cake.....	238
Digestibility studies with ruminants. VII. Plane of nutrition and digestibility of a hay-oil cake ration.....	458
Digest pasture herbage, The relative ability of steers and rabbits to, Pasture studies XVII.....	504
Dormancy in wheat and barley varieties in relation to breeding.....	355
Double-working trials in Eastern Canada, Present status of the apple rootstock and Durum wheat, and barley, The relation between the protein content of Western Canadian hard red spring wheat, amber.....	150
	599
Eastern Ontario, The physiography of.....	424
Economic development of British Columbia, The significance of agricultural production and trade in the.....	73
Efficiency in dairy farming, Factors affecting.....	51
Egg weight—chick weight relationship, The existence of a sex difference in the weight of day-old chicks, with further data on the.....	586
Farming areas in Saskatchewan, Type-of-.....	526
<i>Fasciola hepatica</i> linn, and its potential vectors in Canada, Distribution of.....	166
Feeding value of Canadian western barley for bacon hogs, The.....	365
Fertilizer studies of celery, Greenhouse.....	329
Forest and agricultural lands, Differentiation of.....	291
Fruit grown in British Columbia, Chemical constituents of some.....	321
Greenhouse fertilizer studies of celery.....	329
Herbicides, The rate and mode of penetration of.....	419
History of agriculture in British Columbia, The.....	61
Hoary cresses in Canada.....	750
Hog carcass studies. Effect of early rate of growth on leanness of carcass.....	592
Hogs, The feeding value of Canadian western barley for bacon.....	365
Hybridization, A study of the transference of immunity to stem rust from <i>Triticum durum</i> var. Iumillo to <i>T. vulgare</i> by.....	608
Ichneumon-flies of the genus <i>Campoplegidea</i> occurring in America north of Mexico, A revision of the.....	647
Immunity to stem rust from <i>Triticum durum</i> var. Iumillo to <i>T. vulgare</i> by hybridization, A study of the transference of.....	608
Industrial uses of farm products, An appraisal of the movement to increase.....	20
Irrigation projects, Soil surveys of Saskatchewan.....	170
Land classification in Alberta, Soil surveys in relation to.....	285
Legal problems in relation to marketing legislation.....	43
Livingston atmometer to single meteorological factors, The response of the.....	308
Magnesium deficiency of apple trees in sand culture and in commercial orchards...	516
Marketing legislation, Legal problems in relation to.....	43
Marketing scheme of the lower mainland of British Columbia, Milk.....	39
Maternal-line selection method of breeding for increased seed setting in alfalfa, The	131
Maturity studies with sweet cherries.....	497
Means adjusted by partial regressions, A note on an easy check on.....	234
Meteorological factors, The response of the Livingston atmometer to single.....	308
Micro-element studies with special reference to the element boron.....	470
Microflora of the rhizosphere in relation to resistance of plants to soil-born pathogens, The.....	414

	Page
Milk control boards, The development and operation of.....	29
Milk marketing scheme of the lower mainland of British Columbia.....	39
Moisture studies, Soil. I. Some factors affecting the moisture holding capacity and its determination.....	140
Monoliths, A method for taking soil.....	297
Oat blast, Further studies on.....	157
Oat blast, Studies on.....	532
Partial regressions, A note on an easy check on means adjusted by.....	234
Pasture studies XVII. The relative ability of steers and rabbits to digest pasture herbage.....	504
Pathogens, The microflora of the rhizosphere in relation to resistance of plants to soil-borne.....	414
Peach borer, <i>Synanthedon exitiosa</i> Say, in Ontario, The life history of the.....	557
Penetration of herbicides, The rate and mode of.....	419
Phosphorus, Recent studies on the nature of soil organic.....	266
Physiography of eastern Ontario, The.....	424
"Picric-acid test" method for selecting HCN-free lines in sudan grass, Adaptation of the.....	566
Pigs, Protein requirements of weanling.....	453
Pigs, The salt requirement of growing.....	109
Plum on Vancouver Island, British Columbia, The pollination of the.....	488
Pollination of red clover by honey bees, Cross-.....	574
Pollination of the plum on Vancouver Island, British Columbia, The.....	488
Protein content of Western Canadian hard red spring wheat, amber durum wheat, and barley, The relation between the.....	599
Protein requirements of weanling pigs.....	453
Rapid soil testing technique, Standardization of.....	120
Raspberry nutrition. IV. Can the Cuthbert raspberry be saved in coastal British Columbia?.....	344
Regressions, A note on an easy check on means adjusted by partial.....	234
<i>Rhagoletis pomonella</i> (Walsh), Further studies on.....	551
Root rot in wheat, The relationship of weeds to losses caused by common.....	632
Root rot of wheat with special reference to its control, Present knowledge of browning.....	735
Ruminants, Digestibility studies with. V. Associative digestibility among roughages and succulent feeds.....	175
Ruminants, Digestibility studies with. VI. Associative digestibility of grains: barley, oats and oil cake.....	238
Ruminants, Digestibility studies with. VII. Plane of nutrition and digestibility of a hay-oil cake ration.....	458
Rural population and the trend of agricultural production in British Columbia, The relation between changes in the.....	87
Salt requirement of growing pigs, The.....	109
Salts on plant growth, The effect of alkali.....	272
Scoring system for canning tomatoes, A.....	317
Scottish Mountain Blackface Sheep and some genetical observations on certain breed characteristics, Notes on the history of the.....	205
Seed setting in alfalfa.....	570
Seed setting in alfalfa, The maternal-line selection method of breeding for increased.....	131
Seed, The effect of age on the vitality of soybean.....	236
Sex difference in the weight of day-old chicks with further data on the egg weight—chick weight relationship, The existence of a.....	586

	Page
Sheep and some genetical observations on certain breed characteristics, Notes on the history of the Scottish Mountain Blackface.....	205
Soil moisture studies. I. Some factors affecting the moisture holding capacity and its determination.....	140
Soil monoliths, A method for taking.....	297
Soil organic phosphorus, Recent studies on the nature of.....	266
Soil parent materials in southern British Columbia, The nature of.....	301
Soil survey, Use of the Brunton compass in the Saskatchewan.....	277
Soil surveys in relation to land classification in Alberta.....	285
Soil surveys of Saskatchewan irrigation projects.....	170
Soil testing technique, Standardization of rapid.....	120
Soils, A method for obtaining a comparative rating of Saskatchewan.....	281
Soils, The boron content of some Okanagan.....	257
Soybean seed, The effect of age on the vitality of.....	236
Stem rust from <i>Triticum durum</i> var. Iumillo to <i>T. vulgare</i> by hybridization, A study of the transference of immunity to.....	608
Studies on oat blast.....	532
Studies on oat blast, Further.....	157
Sudan grass, Adaptation of the "picric-acid test" method for selecting HCN-free lines in.....	566
Sweet cherries, Maturity studies with.....	497
<i>Synanthedon exitiosa</i> Say, in Ontario, The life history of the peach borer.....	557
Tomatoes, A scoring system for canning.....	317
Tomatoes, Spacing staked.....	313
Type-of-farming areas in Saskatchewan.....	526
Wars and their effect on agriculture with particular reference to Canadian experiences.....	445
Weeds to losses caused by common root rot in wheat, The relationship of.....	632
Wheat, amber durum wheat, and barley, The relation between the protein content of Western Canadian hard red spring.....	599
Wheat and barley varieties in relation to breeding, Dormancy in.....	355
Wheat grown as a spring crop, Field experiments with winter.....	510
Wheat, The breeding significance of after-harvest sprouting in.....	402
Wheat, The relationship of weeds to losses caused by common root rot in.....	632
Wheat with special reference to its control, Present knowledge of browning root rot of.....	735
Winter wheat grown as a spring crop, Field experiments with.....	510
